Signature Tina L. Sieczkowski

Honorable Director of
Patents and Trademarks
Washington, D.C. 20231

AMENDMENT AND RESPONSE

The present responds to the Office Action mailed December 3, 2001.

In the Claims

Claims 1,2,3,5, and 6 as amended are set forth below. A copy of the claims and specification showing insertions and deletions is attached.

1. (amended) A twisted -pair cable separator spline comprising:
- a longitudinally extending spline having a plurality of spaced longitudinally extending open pockets,
 - a cross-section of said spline having a major axis and a minor axis,
 - at least one pocket being on the major axis, and
 - at least one pocket being on the minor axis, and
